

# **PWK-1W/1B Installation Instructions**

## **OPERATION:**

The PWK-1 transmitter is a portable key ring transmitter. Pressing the button caused the transmitter to be activated and transmit a unique key code for as long as the button is held.

## **TRANSMITTING KEY CODES:**

Each transmitter is programmed to one of 65,000 possible key codes.

**BATTERY LIFE:** 50,000 operating seconds or 10 years.

**MAINTENANCE FREE:** Maintenance cannot be done on this transmitter.

The transmitter is sealed against moisture intrusion and the unit has no provision for changing batteries.
